Muhammad Abdullah

Frontend Developer | React · Next.js · TypeScript · Tailwind CSS

+92348-1719123 abdullahnasar333@gmail.com Portfolio Lahore, Pakistan

SUMMARY

Frontend Developer with professional experience building responsive and maintainable web applications using React, Next.js, TypeScript, and Tailwind CSS. Experienced in translating Figma designs into reusable, responsive interfaces, integrating RESTful APIs, implementing Firebase Authentication and Firestore, and managing application state with Redux Toolkit and TanStack Query. Promoted from Front-End Intern to Junior Front-End Developer, with hands-on experience collaborating with development teams, debugging applications, and improving frontend performance and cross-browser compatibility.

EXPERIENCE

GTechSource - Lahore, Pakistan

Junior Front-End Dev Apr 2026 - Present Lahore, Pakistan

Promoted From Front-End Intern

- Migrated production application from Next.js 12 to Next.js 16, React 16 to 19.
- Developed responsive web applications using React.js and Next.js.
- Integrated RESTful APIs with TanStack Query & Axios for data fetching.
- Implemented complex global state management using Redux Toolkit.
- Developed and maintained Next.js API endpoints for backend functionality.
- Converted Figma designs into reusable responsive frontend components.
- Improved performance and cross-browser compatibility across interfaces.
- Collaborated with developers using Git for feature development.

Front-End Intern Dec 2025 - Mar 2026 Lahore, Pakistan

- Developed reusable UI components using React and Tailwind CSS.
- Converted Figma designs into responsive and consistent interfaces.
- Integrated REST APIs to display dynamic application data.
- Implemented Firebase Authentication and Firestore functionality.
- Optimized component rendering and reduced unnecessary re-renders.
- Followed mobile-first development for responsive application interfaces.
- Debugged UI issues and improved overall application stability.
- Used React hooks to manage state and component behavior effectively.
- Implemented loading, empty, and error states for a clearer user experience.
- Collaborated with team members using Git workflows.

PROJECTS

PetVet Shop

Next.js • React • REST APIs • Context API

- Developed frontend features for a multi-vendor pet marketplace.
- Built responsive product, vendor and shopping interfaces.

DVM Central

Next.js • React • REST APIs • Context API

- Developed frontend features for a veterinary marketplace.
- Built responsive product, vendor and marketplace interfaces.

Ustaad, AI Tutor Finder

Next.js • Gemini • MongoDB

- Replaced traditional filtering with a conversational AI search
- featuring Web Speech API voice search and a responsive tutor dashboard.

Rehloo-Hostel Finder

Next.js • Mongo

- Built a hostel finder platform with smart search and filtering.
- Enabled users to find hostels by location, budget, room type, and amenities

CERTIFICATION

The Complete Full-Stack Web Development Bootcamp

Full-stack web development training. Course provider - Udemy

React - The Complete Guide

Gained hands-on, practical skills in React. Course provider - Udemy

Intro To Front-End

Completed Meta's Introduction to Front-End Course – Coursera

Web Development Fundamentals

Learned core web development concepts, Front-End, Backend, Testing, and responsive design.

EDUCATION

Comsats University

BS Software Engineering 2020 - 2025

Punjab College

ICS Physics 2017 - 2019

SKILLS

Front-End:
React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap.
State & Data:
Context API, Redux Toolkit, TanStack Query, Firebase, Firestore
API Integration:
RESTful APIs, Axios, Next.js API Routes
UI & Libraries:
GSAP, shadcn/ui, Framer Motion, Lenis
Authentication & Payments:
Firebase Authentication, NextAuth.js, Stripe
Tools:
Figma, Git, Github
Currently Exploring:
Backend development (Node.js, databases), AI integration (LLM APIs, RAG)
